

SPECIALITY BREADS

A close-up photograph of two halves of a specialty sandwich, likely a baguette, served on a rustic wooden cutting board. The sandwich is filled with layers of fresh ingredients including green leafy vegetables, sliced red tomatoes, purple onions, and a slice of melted cheese. The bread has a golden-brown, slightly crusty exterior and a soft, airy interior. The background is a neutral, light-colored surface, and the overall lighting is soft and natural, highlighting the textures of the bread and the freshness of the ingredients.

PUTTING the ART into ARTISAN BAKING

We, at Speciality Breads, take bread seriously. Each day, our skilled bakers, combine the finest ingredients and bake to perfection, a fabulous range of breads and sweet bakes for the discerning caterer throughout the UK, Channel Islands, Ireland and beyond. Our masterpieces are available from a network of independent frozen food distributors, guaranteeing you a supply chain of quality and continuity.

Over the years, we have worked closely with our customers to develop an array of great breads, sweet bakes and frozen doughs that are guaranteed:

- ♦ Wildfarmed Flour – using regenerative flour to produce high-quality products which are not damaging the planet.
- ♦ Nut and sesame free.
- ♦ Plant-based – alternatives for all our products.
- ♦ Red Tractor Certified – only 100% British wheat flour and 100% British rapeseed oil.
- ♦ BRCGS Certified producer.
- ♦ Craft Guild of Chefs – brioche burger bun and ciabatta both certified.

Whatever the menu our range of traditional and specialised plant-based breads and frozen doughs are second to none – guaranteed flavour with no compromise on quality. Our fully baked bread range includes loaves, rolls, mini rolls and sweet bakes. We also supply a range of exciting frozen doughs for the creative caterer; one dough with endless possibilities.

Our most exciting launch this year is our partnership with Wildfarmed. We are making serious changes to become the most sustainable bakery in the UK, and Wildfarmed are going to help us become just that. The same delicious-tasting products, but they are positively impacting our planet.

WHO WE ARE

THE ART OF BAKING

Our approach to baking is very simple; we bring together the best elements of traditional baking skills and modern food trends to create stunning breads, sweet bakery products and frozen doughs. We handcraft our bread wherever possible to add that personal touch and to keep real bread making skills alive. We only use the best, carefully sourcing our key ingredients like flour, from family millers and rapeseed oil from local farmers. We are proud to bring you some of the finest breads in the land.

WORKING IN PARTNERSHIP

We like to keep close to our customers so that we can respond quickly to emerging trends, changing tastes and market demands. As an independent bakery, we can be first to market with original breads of great taste and always, exceptional quality. We now have plant-based alternatives for every one of our breads. We have partnered with Wildfarmed who share the same mission with their sustainability journey. We want to positively impact the planet while continuing to create excellent quality bread.

WE NOW HAVE A PLANT-BASED ALTERNATIVE FOR EVERY BREAD WE SELL. THIS IS HELPING REDUCE OUR CO2 EMISSIONS BY 35% ON THOSE PRODUCTS.

BRITISH INGREDIENTS

Wherever we can, we support British farmers. Our key ingredients, like flour and oil, come from Red Tractor assured farms. In fact, our rapeseed oil comes from a farm just six miles from our bakeries. Where we can, we buy British. However, with some ingredients such as cranberries, olives and sultanas, we buy the best from trusted suppliers. All specifications are available on specialitybreads.co.uk.

OUR PEOPLE

Many of our colleagues have worked at Speciality Breads from day one and are generously sharing their skills and expertise with the next generation of bakers. When we recruit, we look for people who care about food and we take the time to equip them with all the skills needed to become expert bakers. We like to promote from within and many of our Management Team have direct experience of baking, quality assurance, quality control and logistics.

OUR CUSTOMERS

Our customers are diverse and are located throughout the UK and beyond. We supply all types of businesses including teashops, landmark hotels, national restaurant chains and many iconic sporting venues. We like to welcome customers to our bakeries in Margate; the best way to learn about our bread, is to try for yourself. If it is not possible for you to visit us, we will send samples to you – please contact your region's Sales Manager as detailed on page 82. As always, we like to spend time with our customers in developing new breads and sweet bakes so please do share your ideas with us.

WE'RE CREATING A FULL RANGE OF PLANT-BASED BREADS AND SWEET TREATS SO EVERYONE CAN ENJOY AND EXPERIENCE THE BEST.

When the plant-based movement kicked off, we wanted to be fully onboard, so we got started on making a plant-based alternative for every single one of our products. This will reduce our CO2 emissions by 35%.

SUSTAINABILITY

ENVIRONMENTAL BENEFIT

While perfecting the plant-based brioche recipe we tested many dairy replacements and eventually settled on the perfect one. While the texture, aroma and butter flavour are all there, the environmental impact isn't! The butter replacement we've chosen has three times lower environmental impact than dairy butter. It uses eight times less water and three times less land. Some figures we think are very compelling. Once we've gone fully plant-based our scope 3 CO2 eq emissions will reduce by 35%, which represents 18% of our total CO2 eq emissions.

PLANT-BASED FOR ALL

Traditionally plant-based products have been for vegans, but this is changing. As more consumers adopt a flexitarian lifestyle, the lines between meat-eater and vegan are blurred. We're fully on board with this change, as is our new plant-based bread. Created so everyone can experience the best, our new plant-based brioche, American buns and teacake recipes are designed to be eaten and enjoyed by all. Brioche remains one of the top choices for a burger bun, so why buy in two varieties, or give a standard bun to a vegan when everyone can enjoy our glorious, sweet, fluffy, and buttery plant-based brioche? The same goes for our teacake, no one has to miss out, and time and storage in the kitchen is saved as only one product is needed.

DRIVING FORCE

In 2021 we made the decision to increase the number of hybrid and electric cars in our company car fleet. Now over half of our company cars are either fully electric or hybrid petrol vehicles, with plans to increase this number this year. By moving to electric vehicles, we are actively reducing our carbon footprint. Electric vehicles produce zero emissions during use and contribute to a considerable reduction in greenhouse gas emissions from the transport sector (Milev et al., 2021).

* Milev, G., Hastings, A. and Al-Habaibeh, A. (2021) "The environmental and financial implications of expanding the use of electric cars - A Case study of Scotland," Energy and Built Environment, 2(2), pp. 204-213.

ENVIRONMENTAL IMPACT

It is unlikely anyone in the UK will forget summer 2022. With temperatures reaching 40°C we all experienced first-hand the impacts of climate change. Whilst a significant year for the UK, 2022 was also an important year at Speciality Breads, as we examined our environmental impact like never before. Working with Normative, our Carbon Footprint has been calculated, setting us off on the journey to go Net Zero by 2030.

WHAT IS 'NET ZERO'

According to the UN net zero is 'cutting greenhouse gas emissions to as close to zero as possible, with any remaining emissions re-absorbed from the atmosphere, by oceans and forests for instance.'

1994 Speciality Breads' story starts as Cartons Boulangerie, a bakery based in Canterbury, that then expanded around the UK.

OUR HISTORY

2012 This decision was rewarded when we supplied 25,000 loaves and 120,000 rolls to the Athletes' Village for the London Olympics.

2019 After 5 months of hard work, we registered over 60 of our breads with The Vegan Society.

2022 While COVID caused shockwaves throughout the business, we bounced back successfully in 2021 making 2022 our biggest year yet.

1996 As the need for consistency across our bakeries grew, we changed paths to become The Frozen Dough Company, supplying bakeries with frozen dough.

2002 As the business evolved and grew, we moved to our premises at Westwood Industrial Estate in Margate, where we still are today, and our name changed for the final time to Speciality Breads.

2011 We took the stand to support British farmers by becoming the UK's first Red Tractor certified bakery using only Red Tractor certified wheat flour in our bread.

2015 The business grew from strength to strength leading to the opening of our second bakery, Enterprise Road.

2020 We became completely nut and sesame free across both bakeries.

COMMITTED TO REACHING NET ZERO BY 2030

We are constantly working on doing our own bit at the bakery to make a positive impact on the planet. However, we are also always looking at new initiatives from our suppliers that will help us to reduce our carbon footprint.

2025 will be a huge year for us at the bakery. We are planning to move to a purpose-built new site that will be as sustainable as possible. Our ultimate aim is to be 100% energy self sufficient by using solar power generated from an on-site solar farm. Combined with existing projects, we hope that this will help us reach our goal of becoming the most sustainable bakery in the UK.

We cannot make these changes on our own, so we've been looking for suppliers that share our vision. Wildfarmed are one of those suppliers and are just as invested as us in making the planet a better place. Wildfarmed work with a network of farmers: conventional, organic, large estates, and family farms. These farmers are united by their desire to embrace soil-focused farming. Wildfarmed produce regenerative flour that tastes great, is better for you and better for the planet.

Our goal is to become the most sustainable bakery in the UK

WHAT, WHEN, HOW

We all know that we need to do something, but the questions are normally, what, when and how:

- ♦ **What**, is simple... which is to identify and work with suppliers who are already making a difference.
- ♦ **When**, is even easier... which is now. The sooner we make a change, the bigger and more positive the impact will be.
- ♦ **How**, is the easiest of all... Just by buying your bread from us, you are demonstrating your commitment to change and helping us to bring about a positive benefit for future generations.

TELL YOUR CUSTOMERS

One of the many benefits of moving to Wildfarmed flour is that anyone using our breads can use the Wildfarmed logo on their menu. Let your customers know about the steps you are taking to be sustainable and what you are doing to help our planet. They want to hear about it.

Please visit the Wildfarmed section of our website to find out more about how you can communicate to your customers the benefits of Wildfarmed.

CIABATTA

A product we've made since day one. We cherish our ciabatta recipe. The one we use today is almost identical to the original recipe. We pride ourselves on the fact that every ciabatta made in our bakery is lovingly hand-finished. Our bakers are truly remarkable. Completely delicious, our ciabatta recipe received the coveted Craft Guild of Chefs Approved Product endorsement in 2015 and continues to hold this proud achievement today.

OUR BAKES

**FROZEN DOUGH**

Still a core element of Speciality Breads frozen dough is one of our longest serving products and is the reason all our products are frozen. It remains a favourite of the teams and amongst customers for its versatility and delicious endless opportunities.

**BRIOCHE SCONE**

You may know this product as the Scioche®, and the product is still the same great tasting recipe. Recent customer surveys show that you, our customers prefer to have a product that describes exactly what it is, which is why we have changed the name from Scioche to Brioche Scone, so it is easier for you to search and locate.

BRIOCHE

A top seller, our brioche has been around since 2004. The French bread is undeniably buttery and delicious. With several varieties including two frozen doughs and our brand new plant-based version, our brioche recipe is a firm favourite. Our traditional brioche recipe also holds the Approved Product Endorsement by Craft Guild of Chefs.

PLANT-BASED BRIOCHE

With the continual popularity in plant-based foods and ever-growing climate concerns, reducing our carbon footprint inspired us to veganise our popular brioche recipe. Through many trials, this year brioche plant-based perfection was achieved marking a new beginning for Speciality Breads. By 2024 we'll have a plant-based version of every bread we sell and with this recipe we're well on our way there.

EDEN RANGE - POTATO RANGE

You may know these products as part of the Eden range, and the products are still the same great tasting recipe. Recent customer surveys show that you, our customers prefer to have a product that describes exactly what it is, which is why we have changed the names from Eden to potato, so it is easier for you to search and locate.

ROLLS & BUNS

From hand-stretched ciabatta to the potato bun, we bake a fantastic array of rolls suitable for any occasion. Our brioche and ciabatta are approved by the Craft Guild of Chefs, giving you an extra level of confidence in the quality of our breads.

VIENNOISERIE

We're proud of our quality and when it comes to viennoiserie, we've partnered with a continental business that shares our values and creates amazing pastries for you.

Did you know?

Though viennoiserie is mostly associated with France, originally the pastries came from Vienna. In fact, the word viennoiserie in French directly translates to 'things from Vienna.' The pastries became popular in France after an Austrian military official, August Zang, opened a bakery in Paris called Boulangerie Viennoise. The pastries became a French sensation that we all know and love today.
